WHO WE ARE

Ifield Global Skills Development & Education was formed by Corporate & HR Leaders, Educators and Specialist Industry Professionals who realised that there is a need for providers and advocates of further learning, professional development programs, & global education for International learners and make it accessible globally.

Our programs are designed to focus on learning style, practical experiences simulation, and know-how of the best practice foundational knowledge delivered by our competent instructors. We employ all available technologies and combined resources to ensure flexibility in our program delivery. All of our programs, courses, and methodologies are carefully selected to ensure the learners' engagement, preference and best experience.

WHAT WE DO

We provide and promote global education programs we believe will benefit international learners. We curate training courses for further learning focusing on the learner's progress and needs. Our programs are designed through a combination of updated best practice, shared knowledge, practical application, and experience.

We believe that making these global standard programs and courses more accessible and affordable to learners of all ages and background, will promote and increase literacy and education in emerging countries and open more opportunities for learners to learn cultures, practices, and gain knowledge from around the world.
